🪪 PROFILE

I have 3+ years of experience in the Software Engineering industry as an experienced front-end web and mobile developer. I graduated from the Computer Science Department of the Faculty of Science and focus on creating the user-facing part of web and mobile applications, also known as the front-end portion.

In my work, I mainly rely on JavaScript libraries such as React.js and Next.js to develop web applications. I also use third-party tools like Tailwind CSS and MUI. Besides, I have extensive experience in utilizing React Native to build mobile applications.

🎓 EDUCATION

Bachelor Degree, *Faculty Of Science* ↗   2014 – Jan 2019
                                                                          Alexandria, Egypt
